APPENDIX A

KIND-OF-BUSINESS CLASSIFICATIONS

Each establishment was assigned a kind-of-business classification based on its major activity during the census year. The kinds of business described below are arranged by major groups.

Special attention is given to those kinds of business in which classification changes have been made between the 1939 and the 1948 censuses, and in the few minor differences between definitions in the Standard Industrial Classification and Census definitions.

PERSONAL, BUSINESS, AND REPAIR SERVICES

Personal Services

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, photographic studios, and pressing and garment repair shops. The kinds of business classified within this group are essentially the same as those included in the Standard Industrial Classification of Personal Services, Major Group 72.

Barber shops

Establishments primarily engaged in furnishing barber services, with the exception of those shops owned by another business, and operated as a part of that business, such as a retail store or hotel. However, barber shop concessions (owned and operated independently), except concessions on trains and steamships, are included in this classification. Barber colleges are also included, providing a charge is made for services rendered by the students to the public. (The Standard Industrial Classification includes all barber colleges, regardless of whether or not service fees are charged.) In the 1939 census, independent operators renting space from a barber shop proprietor were included as separate establishments. In the 1948 census such operators were treated as employees of the individual shop from which space was rented, and the entire operations of the shop were reported as a single establishment.

Beauty shops

Establishments primarily engaged in furnishing beauty services, with the exception of those shops owned by another business, and operated as a part of that business, such as a department store, women's ready-to-wear store, or hotel. However, beauty shop concessions (owned and operated independently) in retail stores or hotels are included. Schools for the instruction of beauty shop operators are also included, providing a charge is made for services rendered by the students to the public. (The Standard Industrial Classification includes all beauty schools, regardless of whether or not service fees are charged.) In the 1939 census, independent operators renting space from a beauty shop proprietor were included as separate establishments. In the 1948 census, such operators were treated as employees of the individual shop from which space was rented, and the entire operations of the shop were reported as a single establishment.

Barber and beauty shops combined

Establishments which combine the functions of a barber shop and a beauty shop at the same site. As in the case of barber shops and beauty shops, the 1939 census included independent operators renting space from a shop proprietor as separate establishments. In the 1948 census, such operators were treated as employees of the individual shop from which space was rented, and the entire operations of the shop were reported as a single establishment.

Cleaning, dyeing plants, except rug cleaning

Plants primarily engaged in dry cleaning and dyeing apparel and household fabrics. Statistics for establishments primarily engaged in rug cleaning are included in the classification, "Rug cleaning and repairing plants." The operations of collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants were included in the plant reports. Establishments generally known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants or units. (The Standard Industrial Classification includes establishments engaged in dry cleaning and dyeing apparel and household fabrics other than rugs, which also do laundry work, in "Power laundries.")

Rug cleaning, repairing plants

Plants primarily engaged in rug cleaning, or in rug cleaning and repairing. Establishments doing repairing only are not included in this classification but are classified in "Other repair shops."

Funeral service

Establishments primarily engaged in preparing the dead for burial and conducting funerals. Funeral service, particularly in rural areas, is frequently reported in connection with retail furniture establishments, or with other retail activities. Every attempt was made to classify such reports accurately, and to include as service establishments only those places of business primarily engaged in conducting funeral services. All revenue from the sale of caskets, burial clothing, etc., is included in service receipts rather than in sales of merchandise.

Power laundries

Establishments primarily engaged in operating mechanical laundries with steam or other power. Laundries included in this classification may perform cleaning and dyeing operations in conjunction with their major laundry operations. (The Standard Industrial Classification includes in this kind-of-business, establishments engaged in dry cleaning and dyeing apparel and household fabrics other than rugs, which also do laundry work.) Collecting and distributing units (branch outlets) owned and operated by power laundries, and industrial laundries, are also included in this classification.

Linen supply service

Establishments primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels. Establishments included in this classification may or may not operate their own power laundry facilities. This classification does not include industrial laundries; they are included in the classification "Power laundries."

Diaper service

Establishments primarily engaged in supplying diapers and other baby linens to homes. Such establishments may or may not operate their own power laundry facilities. In the 1939 census, diaper service establishments were not separately classified, but were included in the classification "Linen supply service."

Laundries (except power)

Establishments such as "French," "Chinese," and other laundries designating themselves as hand laundries, primarily engaged in furnishing laundry services. Many of these establishments use some power-driven equipment, but not of the industrial type.

Photographic studios (except commercial photography)

Establishments primarily engaged in portrait photography for the general public. Street photographers who have no established place of business are not included in this classification. Service establishments primarily engaged in film developing or print processing are classified as "Photo-finishing laboratories." In the 1939 census, portrait and commercial photography were combined in the one classification "Photographic studios"; in the 1948 census, they are classified separately.

Commercial photography

Establishments primarily engaged in photography for advertising agencies, publishers, and other industrial users. Service establishments primarily engaged in film developing or print processing are classified as "Photo-finishing laboratories." In the 1939 census, commercial and portrait photography were combined in the one classification "Photographic studios"; in the 1948 census, they are classified separately.

Pressing, alteration, garment repair shops (except fur)

Shops primarily engaged in pressing, repairing, and altering clothing (except furs) for individuals. Valet shops and establishments which may be known as "Tailor shops," primarily engaged in garment pressing and alteration, are included in this classification, but custom tailors are classified in Retail Trade. Establishments known as "cleaners" which do no dry cleaning but have their cleaning done for them by cleaning and dyeing plants and independently operated collecting and distributing agencies serving cleaning and dyeing plants or power laundries are also included.

Establishments primarily engaged in doing hemstitching, buttonholing, pleating, stitching, tucking, and reweaving for individuals are classified in "Other miscellaneous personal services, n.e.c."

Fur repair and storage shops

Shops primarily engaged in fur repairing and fur storage for individuals. Fur shops primarily engaged in the sale of merchandise from stock, or in making fur apparel to custom order, are classified in Retail Trade.

Shoe repair shops

Establishments primarily engaged in repairing footwear. Shoe repair departments conducted in connection with other service establishments (such as valet shops, laundries, and cleaning and dyeing plants), or with retail establishments (such as shoe stores and department stores) are not included in this classification, unless independently operated as leased departments or concessions.

Shoe shine parlors

Establishments primarily engaged in shining shoes. Shoe shine departments of shoe repair shops, valet shops, and other service or retail establishments are not included in this classification, unless independently operated as leased departments or concessions.

Hat cleaning shops

Establishments primarily engaged in cleaning and blocking hats. Hat cleaning departments of shoe shine parlors, valet shops, and other service or retail establishments are not included in this classification, unless independently operated as leased departments or concessions.

Self-service laundries

Establishments generally known as "laundromats" or "laundrettes" primarily engaged in renting laundry equipment on their own premises for the use of the public. Establishments which install and operate coin-operated laun-

dering machines in apartment houses are classified in "Other miscellaneous personal services, n.e.c." Establishments which rent machines, generally to apartment houses, are classified in "Coin-operated machine rental and repair services." In the 1939 census, self-service laundries were not classified separately, but were included in "Other personal services."

Costume and dress suit rental agencies

Establishments primarily engaged in the rental of costumes and accessories for costume balls, etc., and/or in the rental of tuxedos or formal attire for men and women. (These establishments are not classified separately in the Standard Industrial Classification, but are included in "Miscellaneous personal services, n.e.c.")

Turkish baths, massage parlors

Establishments primarily engaged in furnishing steam baths and massage services. Operations of this type, conducted in connection with other businesses (such as sanitariums and hotels), are not included in this classification, unless independently operated as leased departments or concessions.

Other miscellaneous personal services, n.e.c.

Establishments primarily engaged in providing personal services, not elsewhere classified (such as curtain cleaning and repair shops, locker rental, manicuring concessions, porter service, reducing salons, rug cleaning agencies, scalp treatment establishments, shopping service, social escort service, etc.) for which data are not presented separately because of their limited numbers. The rental of cold storage lockers is not included in the Census of Business.

Business Services

This major group includes establishments primarily engaged in rendering services, not elsewhere classified, to business enterprises on a fee or contract basis. The kinds of business classified within this group by the 1948 Census of Business are the same as those included in the Standard Industrial Classification of Miscellaneous Business Services, Major Group 73, with the exception of Accounting, Auditing, and Bookkeeping Services, Group 737, which are not included in the Census of Business.

Advertising agencies

Establishments primarily engaged in contracting for space in magazines, newspapers, periodicals; for radio time; or other advertising media; and placing advertising for clients on a commission or fee basis. Establishments which write advertising copy, or do commercial art work, but do not place advertising with media, are not included in the Census of Business. Receipts include commissions resulting from space and radio time transactions, and from fees for services rendered, but do not include reimbursements by clients for the cost of space or radio time.

Outdoor advertising services

Establishments primarily engaged in the preparation and presentation of poster displays and painted and electric spectacular displays (principally outdoors) on panels, bulletins, and frames. Such establishments may construct, repair, and maintain display boards and may post advertisements. Shops which make neon signs to order are not included in the Census of Business.

Miscellaneous advertising service

Establishments primarily engaged in furnishing advertising services not elsewhere classified, such as advertising research service, handbill distribution, mail advertising services, publisher and radio representation, the

distribution of samples, and transportation advertising. In the 1939 Census of Business, such establishments were included in "Other business services." Establishments which are primarily engaged in writing advertising copy or commercial art work are not included in the Census of Business.

Consumer credit reporting agencies, mercantile reporting agencies, and adjustment and collection agencies

Mercantile and consumer credit reporting bureaus and privately operated collection or adjustment agencies. Credit reporting bureaus, primarily engaged in publishing, are not in the scope of the Census of Business, but are included in the 1947 Census of Manufactures. Duplicating, addressing, mailing, and mailing list services

Establishments primarily engaged in mimeographing, addressographing, and mailing services, or in compiling and selling mailing lists.

Establishments primarily engaged in furnishing court reporting or public stenographic services. Public stenographers who maintain no separate places of business but are engaged as part-time employees of business offices are not included in the Census of Business.

Blueprinting, photostating services

Establishments primarily engaged in reproducing drawings, plans, maps, or other copy, by blueprinting or photostating.

Employment agencies, private

News syndicates

Establishments primarily engaged in furnishing news, pictures, features, etc., and supplying news reporting services to newspapers and periodicals. Both nonprofit syndicates operated on a membership basis and commercial (nonmembership) news syndicates are included in this classification. In the 1939 census, news syndicates were not classified separately, but were included in "Other business services."

Disinfecting and exterminating service

Establishments primarily engaged in disinfecting buildings and in exterminating insects, rodents, etc.

Window cleaning service

Establishments primarily engaged in cleaning windows in business houses and dwellings.

Miscellaneous services to dwellings and other buildings

Establishments primarily engaged in furnishing specialized services, not elsewhere classified, to dwellings and other buildings, such as janitorial service, floor waxing, and other cleaning. General repair contractors primarily engaged in building and maintenance work are not included in the Census of Business. The cleaning of building exteriors by sand or steam blasting is also outside the scope of the Census of Business. In the 1939 census, establishments furnishing building cleaning services (except window cleaning) were not classified separately, but were included in "Other business services."

Auctioneers' establishments (service only)

Establishments primarily engaged in selling merchandise or real estate for others at auction on a fee or commission basis. Establishments primarily engaged in selling their own or consignment merchandise at auction to household consumers are classified in Retail Trade. Auction companies selling farm products or merchandise in large lots (e.g., leaf tobacco, floor coverings, eggs and poultry, fruit, vegetables, etc.) are classified in Wholesale Trade. Commodity sales at which goods are sold at auction directly at the farm or house site, or in "Community barns," are not included in the Census of Business.

Coin-operated machine rental and repair services

Establishments primarily engaged in renting and repairing coin-operated machines. Establishments primarily engaged in retailing merchandise through coin-operated vending machines are classified in Retail Trade. Establishments engaged in the operation of other coin-operated machines (such as scales, pin ball machines, juke boxes, etc.) are classified as personal service or amusements, depending upon the type of operation involved.

Painting and papering contractors who frequently term themselves "interior decorators" are not included in the Census of Business.

Photo-finishing laboratories

Establishments primarily engaged in the developing of films and in photoprinting and enlarging.

Data are not

shown separately because of the limited number of establishments. Commercially operated research agencies and testing laboratories are included in this classification but non-profit research agencies are not included in the Census of Business.

Automobile Repair Services and Garages

This major group includes establishments primarily engaged in furnishing automobile repair, storage, and rental services to the general public. Similar facilities, owned and operated by concerns for their own use and not for the general public, are treated as auxiliary establishments of those concerns and are not included here. Automobile repair departments maintained by establishments engaged in the sale of automobiles are classified in Retail Trade. Gasoline service stations are also included in Retail Trade. The kinds of business classified within this group by the 1948 Census of Business are the same as those included in the Standard Industrial Classification of Automobile Repair Services and Garages, Major Group 75.

Establishments primarily engaged in renting passenger automobiles or trucks without drivers. In the 1939 census, all automobile and truck rentals, with or without drivers, were included in this classification.
